

# A Hendrix tribute by Slowman & Friends - release sept 2010

WITH ONE ORIGINAL song and eleven Hendrix-treatments, **Slowman** launches a tribute album more closely related to his ordinary field of americana, blues, rock, soul and altcountry than most people realize. Together with **Bengt Alm** (bass/Plastic Pals, Caroline Says etc) and **Stefan Rosén** (drums/Crossroads, Slowman Band etc), the trio has made glimmering and sparkling versions of eleven of Hendrix' own compositions and added an original love tribute to his genius, constantly discovered by new generations. The album is available from Sept 2010.
